

Section 1 - Identification of the Material and Supplier

Distributed in Australia by:

LN Marketing Pty Ltd

35A Lakewood Blvd

Carrum Downs VIC 3201, Australia

Phone: +61 3 9775 0713, Fax: +61 3 9775 1428

Distributed in New Zealand by:

Eproducts NZ Ltd

7D Orbit Drive

Rosedale, Auckland 0632 New Zealand

Phone: +64 9 9166750

Chemical nature:

Molecular oxygen.

Trade Name:**Oxygen, Compressed****Product Code:**

HDOGN

Product Use:

Many industrial, medical and other applications.

Creation Date:**November, 2015****This version issued:****June, 2019** and is valid for 5 years from this date.**Poisons Information Centre: Phone 13 1126 in Australia, 0800 764 766 in New Zealand.**

Section 2 - Hazards Identification

Statement of Hazardous Nature

This product is classified as: Not classified as hazardous according to the criteria of SWA.

Dangerous according to Australian Dangerous Goods (ADG) Code, IATA and IMDG/IMSBC criteria.

SUSMP Classification: None allocated.**ADG Classification:** Class 2.2: Non flammable, non toxic gas. Sub Risk: Class 5.1: Oxidising substances.**UN Number:** 1072, OXYGEN, COMPRESSED**NZ HSNO Approval Number:** Oxygen HSR001029**HSNO Classification:** 5.1.2A: Oxidising substances that are gases.**DG Classification:** Classified as a Dangerous Good for transport in accordance with the Land Transport Rule Dangerous Goods 2005 and NZS 5433:2007.**GHS Signal word: DANGER****HAZARD STATEMENT:**

H270: May cause or intensify fire; oxidizer.

H280: Contains gas under pressure; may explode if heated.

PREVENTION

P220: Keep or store away from combustible materials.

P244: Keep reduction valves free from grease and oil.

P262: Do not get in eyes, on skin, or on clothing.

RESPONSE

P370+P376: In case of fire: Stop leak if safe to do so.

STORAGE

P403+P235: Store in a well-ventilated place. Keep cool.

DISPOSAL

P501: Vent contents to the air and take containers to an approved recycling or waste disposal plant.

Emergency Overview

Physical Description & Colour: Colourless gas.**Odour:** No odour.**Major Health Hazards:** no significant risk factors have been found for this product.

Section 3 - Composition/Information on Ingredients

Ingredients	CAS No	Conc,%	TWA (mg/m ³)	STEL (mg/m ³)
SAFETY DATA SHEET				

Distributed in Australia by: LN Marketing Pty Ltd

Phone: +61 3 9775 0713 (office hours)

Distributed in New Zealand by: Eproducts NZ Ltd

Phone: +64 9 9166750

Poisons Information Centre: 13 1126 from anywhere in Australia, (0800 764 766 in New Zealand)

Oxygen 7782-44-7 pure * not set not set

* Commercially pure. May include small quantities of materials due to manufacturing or reaction processes.

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

Section 4 - First Aid Measures

General Information:

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

Contact or Poisoning: From the available evidence, this product would appear to offer no significant health hazard by any exposure route. Consequently, First Aid is not generally required. If in doubt, or if poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126 or in New Zealand 0800 764 766. In emergency involving gas inhalation, call Poisons Information Centre.

Section 5 - Fire Fighting Measures

Fire and Explosion Hazards: Contains gas under pressure. Oxidizing material. This product increases the risk of fire and will aid combustion. Contact with combustible material may cause fire. In a fire or if heated, a pressure increase will occur and the container may burst or explode.

Extinguishing Media: Water fog or fine spray is the preferred medium for large fires. Aim to dilute the material with large quantities of water. If practical, contain diluted material and prevent from entering drains and water courses.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade. There is a danger of a violent reaction or explosion if significant quantities of this product are involved in a fire. Recommended personal protective equipment is full fire kit and breathing apparatus.

Flash point: Does not burn but may intensify any surrounding fire.

Upper Flammability Limit: No data.

Lower Flammability Limit: No data.

Autoignition temperature: No data.

Flammability Class: Not combustible.

In emergency involving burns to a person or a fire that needs to be extinguished, call 000 in Australia or 111 in New Zealand.

Section 6 - Accidental Release Measures

Accidental release: No measures are normally necessary as the product presents no hazards to people or the environment.

Section 7 - Handling and Storage

Handling: Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

Storage: Store in a cool (below 30°C), well ventilated area. Protect from direct sunlight. Check containers and valves periodically for leaks. Check packaging - there may be further storage instructions on the label.

Section 8 - Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

SWA Exposure Limits **TWA (mg/m³)** **STEL (mg/m³)**

Exposure limits have not been established by SWA for this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

SAFETY DATA SHEET

Distributed in Australia by: LN Marketing Pty Ltd

Phone: +61 3 9775 0713 (office hours)

Distributed in New Zealand by: Eproducts NZ Ltd

Phone: +64 9 9166750

Poisons Information Centre: 13 1126 from anywhere in Australia, (0800 764 766 in New Zealand)

Ventilation: No special ventilation requirements are normally necessary for this product. However make sure that the work environment remains clean and that vapours and mists are minimised.

Eye Protection: Eye protection is not normally necessary when this product is being used. However, if in doubt, wear suitable protective glasses or goggles.

Skin Protection: The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary.

Protective Material Types: There is no specific recommendation for any particular protective material type.

Respirator: Not normally necessary.

Section 9 - Physical and Chemical Properties:

Physical Description & colour:	Colourless gas.
Odour:	No odour.
Boiling Point:	-183°C at 100kPa
Freezing/Melting Point:	-218°C
Volatiles:	Completely volatile at 100°C.
Vapour Pressure:	No data.
Vapour Density:	No data.
Specific Gravity:	No data.
Water Solubility:	Slightly soluble.
pH:	No data.
Volatility:	No data.
Odour Threshold:	No data.
Evaporation Rate:	No data.
Coeff Oil/water Distribution:	No data.
Autoignition temp:	No data.

Section 10 - Stability and Reactivity

Reactivity: This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf life properties.

Conditions to Avoid: This product should be kept in a cool place, preferably below 30°C. Oxygen will accelerate burning of combustible materials.

Incompatibilities: May react violently with combustible materials and with reducing agents. Violently oxidises organic material. Keep equipment free from oil and grease.

Fire Decomposition: No significant quantities of decomposition products are expected at temperatures normally achieved in a fire.

Polymerisation: This product will not undergo polymerisation reactions.

Section 11 - Toxicological Information

Local Effects:

Target Organs: There is no data to hand indicating any particular target organs.

Classification of Hazardous Ingredients

Ingredient	Risk Phrases
No ingredient mentioned in the HSIS Database is present in this product at hazardous concentrations.	

Potential Health Effects

Inhalation:

Short Term Exposure: Available data indicates that this product is not harmful. In addition product is unlikely to cause any discomfort or irritation.

Long Term Exposure: No data for health effects associated with long term inhalation.

Skin Contact:

Short Term Exposure: Available data indicates that this product is not harmful. It should present no hazards in normal use. In addition product is unlikely to cause any discomfort in normal use.

Long Term Exposure: No data for health effects associated with long term skin exposure.

Eye Contact:

SAFETY DATA SHEET

Distributed in Australia by: LN Marketing Pty Ltd

Phone: +61 3 9775 0713 (office hours)

Distributed in New Zealand by: Eproducts NZ Ltd

Phone: +64 9 9166750

Poisons Information Centre: 13 1126 from anywhere in Australia, (0800 764 766 in New Zealand)

Short Term Exposure: This product is believed to be not irritating to eyes.

Long Term Exposure: No data for health effects associated with long term eye exposure.

Ingestion:

Short Term Exposure: Significant oral exposure is considered to be unlikely. This product is unlikely to cause any irritation problems in the short or long term.

Long Term Exposure: No data for health effects associated with long term ingestion.

Carcinogen Status:

SWA: No significant ingredient is classified as carcinogenic by SWA.

NTP: No significant ingredient is classified as carcinogenic by NTP.

IARC: No significant ingredient is classified as carcinogenic by IARC.

Section 12 - Ecological Information

This product will not cause any environmental problems.

Section 13 - Disposal Considerations

Disposal: May be vented to atmosphere in a well ventilated place. Do not discharge into any place where its accumulation could be dangerous. Container may usually be recycled. Only if this option is not suitable, we suggest that you contact a specialist disposal company to arrange disposal.

Section 14 - Transport Information

Dangerous according to Australian Dangerous Goods (ADG) Code, IATA and IMDG/IMSBC criteria.

DG Classification: Classified as a Dangerous Good for transport in accordance with the Land Transport Rule Dangerous Goods 2005 and NZS 5433:2007.

UN Number: 1072, OXYGEN, COMPRESSED

Hazchem Code: 2S

Special Provisions: None allocated

Limited quantities: ADG 7 specifies a Limited Quantity value of NONE for this class of product.

Dangerous Goods Class: Class 2.2: Non-flammable, non-toxic gases.

Sub Risk: Class 5.1, Oxidising Agents.

Packing Group: Not set

Packing Instruction: P200

Class 2.2 Non-Flammable, Non-Toxic gases shall not be loaded in the same vehicle or packed in the same freight container with Classes 1 (Explosives), 4.2 (Spontaneously Combustible Substances), and 5.2 (Organic Peroxides). They may however be loaded in the same vehicle or packed in the same freight container with Classes 2.1 (Flammable Gases), 2.3 (Toxic Gases), 3 (Flammable Liquids), 4.1 (Flammable Solids), 4.3 (Dangerous When Wet Substances), 5.1 (Oxidising Agents), 6 (Toxic Substances), 7 (Radioactive Substances), 8 (Corrosive Substances) 9 (Miscellaneous Dangerous Goods), Foodstuffs and foodstuff empties.

Section 15 - Regulatory Information

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

New Zealand:

NZ HSNO Approval Number: Oxygen HSR001029

Section 16 - Other Information

This SDS contains only safety-related information. For other data see product literature.

Acronyms:

ADG Code	Australian Code for the Transport of Dangerous Goods by Road and Rail (7 th edition)
AICS	Australian Inventory of Chemical Substances
SWA	Safe Work Australia, formerly ASCC and NOHSC
CAS number	Chemical Abstracts Service Registry Number
Hazchem Code	Emergency action code of numbers and letters that provide information to emergency services especially firefighters
IARC	International Agency for Research on Cancer
NOS	Not otherwise specified
NTP	National Toxicology Program (USA)
